

Republicans Pick LaGuardia as Winner in 12th

Representative F. H. La Guardia has been substituted for Walter Cohen as a candidate for the Republican nomination for representative in the Twelfth Congressional District, according to papers filed in the offices of the Board of Elections.

Mr. La Guardia is unopposed and the party nomination, in addition to his personal strength as a vote getter, is expected to win him the election.

Assurances were given at a meeting, it is said, that Mr. La Guardia would actively support Senator Wadsworth for re-election and also would support the Coolidge administration and Speaker Nicholas Longworth as a member of the House.

Playgrounds Cut Child Mortality, Councils Report

Since the opening of playgrounds throughout the city there has been a marked decrease in the number of children killed and injured, according to the Community Councils of New York. Its report is based on Police Department figures.

In spite of unusual congestion in the streets during July, when the Interborough strike was in progress only twenty-two children were killed this year, against thirty-nine a year ago and forty in 1924. In the first three weeks of August only fourteen children were killed, a decrease of almost 50 per cent. from other years. The number of those injured has shown a similar decrease.
